

Study Link Counselor OS: System Requirement & Operational Guide

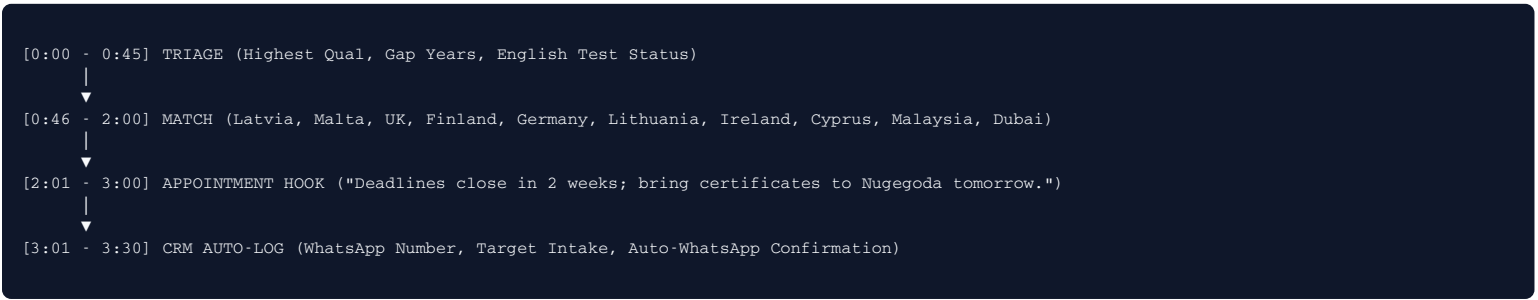

Rapid 3-Minute Triage Engine + 10-Country Rules Matrix + Counselor CRM Pipeline

1. EXECUTIVE SUMMARY & OPERATING PRINCIPLES

This contract governs the implementation of the **Study Link Counselor OS**. It is designed for front-line educational counselors handling high-velocity inquiry calls. In a 3-minute phone interaction, the system evaluates candidate eligibility against 10 destination countries, highlights relevant hooks, and records the lead into an appointment conversion pipeline.

Non-Negotiable System Constraint: The frontend is read-heavy. All 10 country rules, qualifications, and pitch scripts reside in deterministic client-side JSON configurations. Search and eligibility calculation must resolve in under 50 milliseconds without external API delays.

2. 3-MINUTE CALL FLOW ARCHITECTURE

3. TOP 10 STUDY DESTINATION TRIAGE MATRIX

Country	Age / Gap Limit	Academic Entry	English Requirement	Bank Proof & Initial Cost
Latvia	UG < 30, PG < 45 Gap: 5-8 yrs w/ exp	UG: 3C / 2C 1S in A/L PG: 3-yr Bachelor (2.5 GPA)	Duolingo 100+, IELTS 6.0, or Skype interview; MOI accepted for PG	~€7,200 living deposit + 1st year tuition (~€3,500)

Dubai (UAE)	Up to 50+ yrs Gap: Freely accepted	UG: O/L or A/L passes PG: Degree or Diploma	No IELTS mandatory; direct internal admission	Lowest scrutiny; visa issued via university sponsor

4. LEAD CRM PIPELINE & OPERATIONAL TRACKING

Every lead captured through social inquiries or direct phone calls flows through 6 standardized stages:

Stage	Definition & Counselor Objective	System Action
1. New Lead	Uncontacted inquiry from Facebook, TikTok, or Website.	Highlights lead in red if uncalled after 15 minutes.
2. Triageed	3-minute qualification call completed; country fit identified.	Tags matched country and attaches customized script hook.
3. Appointment Set	Candidate committed to visit Nugegoda office or attend Zoom session.	Dispatches WhatsApp confirmation with location pin & checklist.
4. File Opened	Student visited office, provided passport/marksheets, paid advance.	Creates document verification checklist (AIC, VFS, etc.).
5. Visa Lodged	Application submitted to university and visa lodged at VFS/Embassy.	Sets interview preparation reminders and embassy trackers.
6. Closed / Enrolled	Visa approved, tuition finalized, and flight details scheduled.	Marks deal as won and updates intake conversion analytics.

6. DEFINITION OF DONE (QUALITY GATE)

- **Sub-50ms Calculation:** Filtering by age, gap, and qualifications dynamically highlights eligible countries without full-page reloads.
- **One-Click WhatsApp Integration:** Clicking the student phone number triggers `wa.me/94...` with a pre-filled appointment reminder.
- **Zero External Database Dependency:** Leads and updates persist reliably to `localStorage` or `data/leads.json` for lightweight, maintenance-free operations.
